SOCIAL CORNER POEMS The Ghost of the Past

We two kept house, the Past and I. The Past and I; tended while it hovered high, Leaving me never alone. Where fell no jarring tone, strange, as still a housekeeping.

As ever has been known.

It dwelt with me just as it was.

Just as it was.

When first its prospects gave me pause in wayward wanderings,
Before the years had torn old troths As they tear all sweet things, before gaunt griefs had torn

And dulled old rapturings.

And then its form began to fade, And then its form began to fade,
its gentle schoes faintlier played
At eve upon my ear
Than when the nutumn's look embrowned
The lonely hambers here,
The autumn's mettling shades embrowned
Nooks that it liminted near,

And so with time my vision less,
Yea, less and less,
Makes of that Past my housemistress;
It dwindles in my syc;
It looms a far-off skeleton
And not a comrade usch,
A fitful far-off skeleton ng as days draw by.

Nearer my Father's house, Where the many mansions be Nearer the great white throne; Nearer the crystal sea;

Nearer maining the crown:

But the waves of that silent sea.

Dear Social Ceroer Friends: It is some time since I have greeted you. The letters have been so fine that large thing I could my has comed too insignificant to be given space.

I want to thank interested Render at this late day for the charming calendar received so long ago. It occupies a prominent place on my desk.

A thought has comed too insection with the world wer now in progress. Autocracy and democracy are enfarted in a mighty struggle—which will conquert We are doing our fits that victory may perch on the manner of democracy. Now the thought I would share with your is this: How many of us as individuals are autocrated. But have lost all that is due them. Why, a missing man, Hez, may have died a hero, deserving decoration, and no one knows of his valor, and if he is not heard from as a prisoner he may be suspected of cowardice and having deserted! His wife and children are debarred from pensions, for they have no proof that he perished serving his country. That word missing is awful to me. "Surely, it is a wicked word," said I. HEZ HARMONDY,

or sixter, doing our utmost to this or that person fit into a bole when it was a round hole God Intended him to fill.

Too many of us, I believe, are tyants in a small way—just as far as se possess the power to be, sometimes inconsciously. I cite an instance:

see the merits of a great painting.

I remember visiting one militonaire's house and upon the walls of the parlor there was not a picture worth 150 unless it was a family portrait, which, by the way, have come to be regarded as more or less caricatures. In another millionaire's house back of the parlor was an art gallery with twenty thousand dollars' worth of the parlor was an art gallery with twenty thousand dollars' worth of pictures in it, not one of which do I have a clear recollection of, sithough I had ample opportunity to see them all and to be deeply impressed.

Our tastes, are disclosed by our stelection of pictures, and association makes often commonplace scenes very dear to us.

I like to see on the walls of a home a picture of the old homestead, or the old swimming kole, the creek of boyhood days which had in it watercress or water liles and perch and "turkles". The warm, pleasant days are slow in coming but I think they will put in an appearance before long.

It will not require much imagination on the part of my readers for them to see how at the end of eighteen months Marian's nerves were worn to a shred. Since Mrs. Blank's death I have sat once in the church of which she was for years a member. On a beautiful memorial window I read her ham. I thought of her many good qualities, but I also thought of Marian whose health was permanently individually in the surrounding country was anxious for her company, and while they offered all kinds of inducements and let live!" is indeed a good motto.
